

Camera Name: Samsung Gear 360 Action camera.

This research is for the 2016 model 360 camera.

Known to overheat after 20-30 min.

The battery can be changed instead of charged. Lasts for about 2 hours.

Can record up to 2 hours of video at once.

Can connect to a compatible phone using Bluetooth.

It is more compatible with Samsung and Android phones than with iPhones. But can also be used without connecting a phone.

Can be used both indoors and outdoors.

Water resistant but not submersible.

Use cases

- Photographing the entirety of a surrounding area at the same point in time
