

I spent a bit of time learning about how website hosting works., it has been determined that the best place for us to buy our domain name for Accessible routes is from Squarespace.

This is the link that we would get it from:

<https://domains.squarespace.com/>

The screenshot shows the Squarespace Domains interface. At the top, there is a search bar with the text 'accessibleroutes' and a magnifying glass icon on the left, and a close icon (X) on the right. Below the search bar, a list of domain suggestions is displayed. The first suggestion is 'accessibleroutes.com' with the status 'UNAVAILABLE'. The second is 'accessibleroutes.net' with a price of '\$4/yr' and a crossed-out '\$20/yr' with a shopping cart icon. The third, 'accessibleroutes.org', is highlighted and shows a price of '\$12/yr' and a crossed-out '\$20/yr' with a shopping cart icon. Below it are 'accessible-routes.com', 'accessibledetours.com', and 'accessibleroutesusa.com', all with a price of '\$12/yr' and a crossed-out '\$20/yr' with a shopping cart icon.

Domain Name	Price	Original Price	Icon
accessibleroutes.com	UNAVAILABLE		
accessibleroutes.net	\$4/yr	<del>\$20/yr</del>	🛒
accessibleroutes.org	\$12/yr	<del>\$20/yr</del>	🛒
accessible-routes.com	\$12/yr	<del>\$20/yr</del>	🛒
accessibledetours.com	\$12/yr	<del>\$20/yr</del>	🛒
accessibleroutesusa.com	\$12/yr	<del>\$20/yr</del>	🛒

The domain name that we chose is accessibleroutes.org.s

It will cost about \$12 per year if bought during the sale. If bought outside of the sale, it will go up to \$20. If the domain name is not paid for and renewed every year, it will expire.
